Statement

FOR IMMEDIATE RELEASE
May 22, 2006

A Statement from the Department of Veterans Affairs

The Department of Veterans Affairs (VA) has recently learned that an employee, a data analyst, took home electronic data from VA, which he was not authorized to do. This behavior was in violation of our policies. This data contained identifying information including names, social security numbers, and dates of birth for up to 26.5 million veterans and some spouses, as well as some disability ratings. Importantly, the affected data did not include any of VA's electronic health records nor any financial information. The employee's home was burglarized and this data was stolen. The employee has been placed on administrative leave pending the outcome of an investigation.

Appropriate law enforcement agencies, including the FBI and the VA Inspector General's office, have launched full-scale investigations into this matter. Authorities believe it is unlikely the perpetrators targeted the items because of any knowledge of the data contents. It is possible that they remain unaware of the information which they possess or of how to make use of it. However, out of an abundance of caution, VA is taking all possible steps to protect and inform our veterans.

VA is working with members of Congress, the news media, veterans service organizations, and other government agencies to help ensure that those veterans and their families are aware of the situation and of the steps they may take to protect themselves from misuse of their personal information. VA will send out individual notification letters to veterans to every extent possible. Veterans can also go to www.firstgov.gov to get more information on this matter. This website is being set to

handle increased web traffic. Additionally, working with other government agencies, VA has set up a manned call center that veterans may call to get information about this situation and learn more about consumer identity protections. That toll free number is 1-800-FED INFO (333-4636). The call center will be open beginning today, and will operate from 8 am to 9 pm (EDT), Monday-Saturday as long as it is needed. The call center will be able to handle up to 20,000 calls per hour (260,000 calls per day).

Secretary of Veterans Affairs R. James Nicholson has briefed the Attorney General and the Chairman of the Federal Trade Commission, co-chairs of the President's Identity Theft Task Force. Task Force members have already taken actions to protect the affected veterans, including working with the credit bureaus to help ensure that veterans receive the free credit report they are entitled to under the law. Additionally, the Task Force will meet today to coordinate the comprehensive Federal response, recommend further ways to protect affected veterans, and increase safeguards to prevent the reoccurrence of such incidents. VA's mission to serve and honor our nation's veterans is one we take very seriously and the 235,000 VA employees are deeply saddened by any concern or anxiety this incident may cause our veterans and their families. We appreciate the service our veterans have given their country and we are working diligently to protect them from any harm as a result of this incident.

Frequently Asked Questions on VA's Letter to Veterans

1- I'm a veteran, how can I tell if my information was compromised?

At this point there is no evidence that any missing data has been used illegally. However, the Department of Veterans Affairs is asking all veterans to be extra vigilant and to carefully monitor bank statements, credit card statements and any statements relating to recent financial transactions. If you notice unusual or suspicious activity, you should report it immediately to the financial institution involved and contact the Federal Trade Commission for further guidance.

2- What is the earliest date at which suspicious activity might have occurred due to this data breach?

The information was stolen from an employee of the Department of Veterans Affairs during the month of May, 2006. If the data has been misused or otherwise used to commit fraud or identity theft crimes, it is likely that veterans may notice suspicious activity during the month of May.

3- I haven't noticed any suspicious activity in my financial statements, but what can I do to protect myself and prevent being victimized by credit card fraud or identity theft?

The Department of Veterans Affairs strongly recommends that veterans closely monitor their financial statements and visit the Department of Veterans Affairs special website on this, www.firstgov.gov or call 1-800-FED-INFO (1-800-333-4636).

4- Should I reach out to my financial institutions or will the Department of Veterans Affairs do this for me?

The Department of Veterans Affairs does not believe that it is necessary to contact financial institutions or cancel credit cards and bank accounts, unless you detect suspicious activity.

5- Where should I report suspicious or unusual activity?

The Federal Trade Commission recommends the following four steps if you detect suspicious activity:

Step 1 – Contact the fraud department of *one* of the three major credit bureaus:

Equifax: 1-800-525-6285; www.equifax.com; P.O. Box 740241, Atlanta, GA 30374-0241

Experian: 1-888-EXPERIAN (397-3742); www.experian.com; P.O. Box 9532, Allen, Texas 75013

TransUnion: 1-800-680-7289; www.transunion.com; Fraud Victim Assistance Division, P.O. Box 6790, Fullerton, CA 92834-6790

Frequently Asked Questions // 2

Step 2 – Close any accounts that have been tampered with or opened fraudulently

Step 3 – File a police report with your local police or the police in the community where the identity theft took place.

Step 4 – File a complaint with the Federal Trade Commission by using the FTC's Identity Theft Hotline by telephone: 1-877-438-4338, online at www.consumer.gov/idtheft, or by mail at Identity Theft Clearinghouse, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington DC 20580.

6- I know the Department of Veterans Affairs maintains my health records electronically; was this information also compromised?

No electronic medical records were compromised. The data lost is primarily limited to an individual's name, date of birth, social security number, in some cases their spouse's information, as well as some disability ratings. However, this information could still be of potential use to identity thieves and we recommend that all veterans be extra vigilant in monitoring for signs of potential identity theft or misuse of this information.

7- What is the Department of Veterans Affairs doing to insure that this does not happen again?

The Department of Veterans Affairs is working with the President's Identity Theft Task Force, the Department of Justice and the Federal Trade Commission to investigate this data breach and to develop safeguards against similar incidents. The Department of Veterans Affairs has directed all VA employees complete the "VA Cyber Security Awareness Training Course" and complete the separate "General Employee Privacy Awareness Course" by June 30, 2006. In addition, the Department of Veterans Affairs will immediately be conducting an inventory and review of all current positions requiring access to sensitive VA data and require all employees requiring access to sensitive VA data to undergo an updated National Agency Check and Inquiries (NACI) and/or a Minimum Background Investigation (MBI) depending on the level of access required by the responsibilities associated with their position. Appropriate law enforcement agencies, including the Federal Bureau of Investigation and the Inspector General of the Department of Veterans Affairs, have launched full-scale investigations into this matter.

8- Where can I get further, up-to-date information?

The Department of Veterans Affairs has set up a special website and a toll-free telephone number for veterans which features up-to-date news and information. Please visit www.firstgov.gov or call 1-800-FED-INFO (333-4636).
